

About “PMIX”

Established in the year 2004, we are a noted organization engaged in manufacturing and exporting a quality assured range of **Pan Mixer** under the brand name of “**PMIX**”. And our customers have rewarded us with the privilege to serve them time and time again. Products offered are widely appreciated all over the world, because of their long service life, robust construction, reliable performance, precise design, friendly, resistance against corrosion and abrasion, ability to work under extreme conditions

In addition, with the continued support of our experienced workforce and intelligent, we are able to provide the products offered in different sizes, grades and as detailed by the clients to offer them a variety of options to choose. They also ensure to deliver the products offered with minimum time by making use of modes of transportation easy.

After more than 15 years on the market PMIX Pan Mixers have proved themselves to be sturdy with high efficiency. Especially when mixing different Materials such as those with a low cement content & dense material.

Why “PMIX”

- Having wide Experience in Mixing
- Wide Product Range More than 50 Models for different application
- More than 1500 mixer are running in different application
- Supplied in more than 15 Countries
- Repeat business rate is over 90%.
- Well Equipped Manufacturing Facility
- In House Manufacturing
- Test Centre Facility in our Plant
- Well Designed Mixer by Expert
- Fast despatch and delivery guarantee
- All parts interchangeable
- Maintain Spare Stocks

About Pan Mixer

What is Pan Mixer:-

Having Machine pan and wall of height the whole pan is fitted on heavy duty Structure. Blades are fitted in such a way that maximum bottom area is covered. All blades are overlapping each other. So that no material is left Un-ground. The mixing assembly are running on bearing assembly housing with sealing arrangement to prevent the damage, driven by oil filled specially design heavy duty different type of gear box and powdered by As per model electric motor complete with starter & control panel The main drive from motor to gearbox by V-Belt pulley as well as direct drive

Standard Feature:-

- Direct Drive
- Worm Reduction, Helibevel and Inline Planetary Gear Box
- Top Safety Cover with Bag Breaker
- Castrol Wheel*
- Swiveling Type Discharge Bottom Door with Chute
- Limit Switch for Top Safety Cover
- No Foundation Required
- Plug & Start
- All parts interchangeable
- Provided Lifting hook

Options: -

- Wear Resistant Bolted Liners
- Water spray bar
- Water Dosing System
- Material Loading System
- Hydraulic Discharge Door
- VFD Control for Speed Variable

Particular	Model							
	PM 60 E	PM 80 E	PM 110 E	PM 135 E	PM 150 E	PM 165 E	PM 180 E	PM 200 E
Maximum Input (kg.)	50	100	200	250	300	500	750	1000
Motor Power Input HP	2	5	7.5/10	10/12.5	15	25	30	50
RPM of Mixing Arm	36	36	36	36	36	30	30	24
Number of Mixing Arm	2	3	4	4	4	6	6	7
Number of Scrapers	1	1	1	1	1	1	1	1
Loading Height (mm)								
Discharge Height (mm)								
All-over Dimension (mm)								
Weight of Mixer (kg)								

Note:-

- Capacity and Motor Power consider as per dense material , Can be vary as per application
- We have also same model for light weight material in "E" Series
- Can be customized mixer as per specific client needs
- Castrol wheel provided up to 300 kg model
- Due to continuous development in the design, specification & dimensions are subject to change without prior notice
